Addis Ababa, Ethiopia

<https://t.me/samuels5>

www.linkedin.com/in/samuel-mulugeta-863861257/

Language

Human language -> English,

Amharic and guragegna

Computer language -> python,

javascript and c++

Key Skills

Python

Problem solving

PLC programing

Arduino programing

Communication

Team leadership

Awards

Certificate of excellence for
presidential award

From Addis Ababa Science and
Technology University

Profile

Fast learner who is always ready to take on new challenges. Big interest in problem solving, web development, machine learning, and ethical hacking. constantly seeking out new opportunities to expand my knowledge and skills

Education

From 1998 – 2000 E.C (Kg1 – Kg3) -> slam primary school

From 2001 – 2007 E.C (Grade1 – Grade7) -> misgana primary and secondary school

2008 E.C (Grade8) -> S.T Gabriel primary and secondary school

From 2009 – 2012 E.C (High school) -> Lideta Catholic Cathedral school

From 2013E.C – now (university) -> Addis Ababa Science and Technology university

Experience

Web development

- Front end -> html 5, css 3, bootstrap and react
- Back end -> node.js, express.js and postgresQL

Industrial automation

- Plc programing for big industrial automation
- Arduino programing for innovation projects

Projects

Automatic coffee making machine: design project with 15 team members

- We used arduino for sensing the cup and controlling the coffee's flow rate.

Responsive website with react: using face recognition API to detect face

Specialities

Academic excellence, high commitment, hardworking and fast learner
